STONE URBAN DISTRICT COUNCIL

ANNUAL REPORTS

of the

MEDICAL OFFICER OF HEALTH

and

SENIOR PUBLIC HEALTH INSPECTOR

To the Chairman and Members of the Stone Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I have the honour of presenting to you the Annual Report for the year 1960. The Report has been compiled on the general lines indicated by the Ministry of Health.

The population of the area is returned at 8,840, which is an increase of 70 on the figures for 1959.

The total number of deaths from all causes amount to 119, which is a reduction of 10 compared with 1959.

The number of deaths of infants under 1 year of age occurring in 1960 totalled 4, which is an increase of 3 on the figure for 1959.

Neoplasm of the lung and bronchus accounted for 4 deaths during the year, and deaths from coronary diseases and angina amounted to 17, which figure was 2 less than that for the previous year.

Regarding the Housing Programme, the following is a general overall picture of the problem as it was at the end of 1960 :-

The Council's first five year programme of slum clearance 1956/1960 was completed during the year, with the demolition of 14 houses making a total of 122 houses dealt with in the five years.

Of the total of 227 houses remaining in the programme, it is hoped that rather more than one third may be improved to a fit standard and the remainder will be condemned. This programme will be dealt with gradually and spread over the next fifteen years and sites acquired for rehousing purposes as they are cleared.

16 houses were modernised with the aid of improvement grants during the year, 14 of these being owner-occupiers.

From a survey conducted to ascertain the numbers of older houses lacking bathrooms and other modern amenities, the Urban District is better than average in this respect. However, approximately 500 houses, being some 17% of the total in the area, are still without a separate bathroom.

The number of deaths due to motor vehicle accidents during the year amount to 1 (The figures for 1959 = 2, for 1958 = 4).

I would like to express my appreciation of the assistance from the Members of the Public Health Department in the compilation of this report, and to the Members of the Public Health Committee and to the Clerk of the Council for their help and interest during the past year.

I am,

Your obedient Servant,

F. J. MURRAY

- 1 Medical Officer of Health.

PUBLIC HEALTH OFFICIALS FOR THE AUTHORITY

Medical Officer of Health

F. J. Murray, D.P.H.

Deputy Medical Officer of Health

C. Arthur, M.B., B.CH.

Senior Public Health Inspector
(Also Engineer and Surveyor)

A. Ainley
F.F.S., M.R.S.H., Dip.R.I.P.H.H., C.S.I.B.
Certified Meat & Food Inspector

Additional Public Health Inspector

W. A. Stocker
Cert. S.I.B., Cert. Meat & Food Inspector

Clerks

Mrs. P. Platt
(resigned 25.11.60)
Miss P.D. Hilling
(commenced 1.12.60)
Miss S.J. Costello

GENERAL STATISTICS OF THE AREA.

Area (in acres)	1,951
Population (General Registrar)	8,840
Number of inhabited houses and flats	2,929
Population density per house	3.02
Rateable Value	£101,194
Sum represented by a penny rate	£395

INDUSTRIES

Boots and Shoes	Electrical Insulators
Brewing	Tiles
Scientific and Industrial Glassware	Light Industries

NOTES ON STATISTICS

Population.

The population for the area for the year 1960 amounted to 8,840. (1959 - 8,770).

Births.

The total number of live births in the area amounted to 145, which was an increase of 32 on the previous year. This gives a live birth rate for the year of 16.4 per 1,000 population - figure for England and Wales, 17.1.

Deaths.

The total number of deaths from all causes (including inward transferable deaths) occurring in the area amounted to 119 (1959 - 129). This gives a death rate in the area for the year of 13.4 - figure for England and Wales, 11.5.

The number of children under 1 year of age who died in the area during the year totalled 4 - figure for 1959, 1. This gives an infant mortality rate for the area of 27.5 per 1,000 live births - figure for England and Wales, 21.9.

National Assistance Act.

No action was taken under this Act during the year.

Food Poisoning.

There were no cases notified during the year.

Notified Infectious Diseases.

The number of cases notified during the year amounted to 4 (1959 - 229, 1958 - 6). The 4 were cases of measles.

Vital Statistics.

These figures give particulars of the births and deaths rates for the area during 1960 and are compared with the rates for England and Wales.

	Live Births		Still Births		Deaths of infants under 1 yr.		Deaths of infants under 4 weeks		Deaths of infants under 1 week	
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
Legitimate	69	70	1	2	3	1	3	1	3	1
Illegitimate	4	2	-	-	-	-	-	-	-	-
Total	73	72	1	2	3	1	3	1	3	1

Maternal Mortality.

No cases of maternal mortality, either due to abortion or other causes, occurred during the year.

Birth and Death Rate.

Comparability Factors :-	Births 0.98	Deaths 0.75	
		<u>Stone U.D.</u>	<u>England and Wales.</u>
Live Births per 1,000 population		16.4	17.1
Live Births per 1,000 population adjusted		16.0	-
Still Births per 1,000 Live and Still Births		20.2	19.7
Death rate per 1,000 population		13.4	11.5
Death rate per 1,000 population adjusted		10.0	-
Death rate, infants under 1 year per 1,000 Live Births		27.5	21.9
Death rate, infants under 4 weeks per 1,000 Live Births		27.5	15.6
Death rate, infants under 1 week per 1,000 Live Births and Still Births		26.8	32.9

Miscellaneous	74	14
Surveys (Council and Private Houses for Standard Amenities)	995	-
	<hr/> 2493 <hr/>	<hr/> 136 <hr/>

1. Sewerage and Sewage Disposal.

Samples of the effluent discharged from the Sewage Disposal Works have been taken by the County Health Department and the Trent River Board on a monthly basis and all but one have complied with the standard suggested by the Royal Commission.

Details of soil and storm sewage 1956-1960 :-

Year	Soil sewage treated at Disposal Works Gallons	Storm water treated at Pumping Station Gallons	Total Gallons	Rainfall
1956	155,283,000	9,788,360	165,071,360	26.98
1957	199,933,000	11,602,760	211,535,760	29.99
1958	185,894,000	13,476,146	199,370,146	38.03
1959	175,032,000	8,791,200	183,823,200	22.45
1960	201,309,000	21,741,660	223,050,660	38.17

During 1960 there were 152 rainless days.

2. Drainage.

The detailed supervision of all drainage works has been continued in connection with repairs and improvements to existing systems and also of new work.

3. Pail Closets and Septic Tanks.

There are now 10 houses with pail closets and 33 houses with septic tanks in the area. The pail closet emptying service was maintained.

4. Water Supply.

The Staffordshire Potteries Water Board provide the water supply for the town. The excellent bacteriological quality has been maintained during the year. 125 samples taken by the Board were satisfactory in all respects.

60 samples were taken for chemical analysis.

4 visits were made to premises in connection with water supply.

New supplies during 1960 :-

31 houses	}	Private Enterprise.
18 bungalows		
3 flats		
—		
Total	52 dwellings	+ 1 Church Meeting Hall.
==		

5. Refuse Collection.

Two Karrier vehicles are operating full-time together with one vehicle part-time on waste paper collection.

Tipping operations commenced at Cold Norton - situated in the Stone Rural District - in two pits - to be reclaimed for agricultural use.

The difficulty in finding long term tipping sites remains a formidable problem, particularly in view of development in the district.

Sites outside the Urban area will add to the running and collection costs and it may be necessary to consider the provision of extra vehicles in future years to meet collection needs for such purposes. If this situation develops, difficulty will be experienced in recruiting suitable additional collection staff from available local labour.

The question of joint schemes of refuse disposal has been discussed with other Local Authorities but it has been found too costly and the facility limited.

Salvage

The collection and disposal of waste paper, containers and rags has been maintained. Scrap iron and other metals are separated and salvaged but metal containers (cans) are not recovered.

<u>Salvage Disposal</u>						
<u>1st January to 31st December, 1960</u>						
	T.	C.	Q.	£	s.	d.
Waste Paper and Cardboard	107	11.	1.	752	18.	9.
Rags	3	13.	0.	54.	15.	0.
Scrap Iron	8	3.	0.	40.	15.	0.
	119	7.	1.	848	8.	9.

HOUSING

6. A further private estate has been laid out with building plots for 126 dwellings and building has continued on two private housing estates which will consist of 125 dwellings.

13 application for Standard Improvement Grants and 7 applications for Discretionary Improvement Grants have been made during the year.

Number of houses erected during the year :-

(i) By Local Authority	Nil		
(ii) By other Local Authorities	Nil		
(iii) By private enterprise	31 houses	18 bungalows	3 flats
	<hr/>		
Total	31 houses	18 bungalows	3 flats
	<hr/> <hr/>		

Number of houses owned by the Council on the 31st December, 1960, built under the provisions of the various Housing Acts :-

Erected during the years 1919 - 1940	-	276 (and remaining in the Council's possession).
Erected during the years 1947 - 1959	-	526
Erected during the year 1960	-	Nil
		<hr/>
Total houses, flats and bungalows		802
		<hr/> <hr/>

7. Inspection and repair of dwelling houses.

During the year 28 informal notices were served for repairs in private houses. The majority of these notices were complied with and the work satisfactorily carried out.

Inspection.

1. (a)	Total number of dwelling houses inspected for housing defects (Under Public Health and Housing Acts)	733
(b)	Number of inspections made for the above purpose	803
2.	Properties demolished or closed in 1960 ...	14
3.	Number of houses remaining in the 5-20 years programme :-	
	Category 2	80
	Category 3	147
	Total ...	<u>227</u>

Remedy of Defects.

Number of houses repaired, rendered fit or improved in consequence of formal action ...	Nil
Number of dwelling houses repaired, rendered fit or improved in consequence of informal action	30
Number of dwelling houses rendered fit or improved in consequence of voluntary action by owner	22

8. Demolition of dwelling houses.

Number of houses demolished as a result of formal action	1
Number of houses demolished as a result of informal action	12
Number of houses demolished in default	2
Further statutory Demolition Orders served (property to be demolished in the following year)	Nil
Closing Orders made under Section 17 of the Housing Act, 1957	Nil

9. Overcrowding and Rehousing.

All occupants of houses in the five year slum clearance programme 1956-1960 had already been rehoused prior to 1960. Two council tenants were rehoused in larger houses to relieve overcrowding. 17 council houses became vacant during the year and these were re-allocated mainly under the points system.

10. Moveable Dwellings.

Two areas of land were again used without consent for the parking of caravans. One site was eventually cleared by informal action and the other is being dealt with under the new Caravan Sites and Control of Development Act, 1960.

Private canal cruising boats are hired out for holiday travel by a Stone Company. A fair number of pleasure craft now use the Trent and Mersey Canal during the summer.

11. Dirty and Verminous Premises.

Visits were made to 3 dirty houses and the necessary instructions and advice given to secure their cleansing.

12. Rodent Control.

Two treatments were carried out to the sewer system of the town. Regular treatment of the refuse tip and other surface installations has been carried out.

Details of treatments other than sewers are as shown in the following table :-

	Local Authority.	Dwelling Houses.	Agri-cultural.	All other purposes.
<u>Rats</u>				
Major infestations	3	-	-	-
Minor infestations	4	66	-	10
<u>Mice</u>				
Major infestations	-	-	-	-
Minor infestations	1	8	-	5

13. Pet Animals Act.

One shop licence was renewed for this purpose. No contraventions occurred.

14. Factories.

Number on Register 37

Number of inspections for all purposes ... 36

At the end of the year all factories had been supplied with a Certificate of Means of Escape in Case of Fire under Section 34 of the Factories Act.

This administration has now passed to the Staffordshire County Council.

15. Smoke Abatement.

The general response and co-operation of industry within the Urban area has been good. One firm has continued a conversion scheme from coal fired to gas fired kilns and so far four kilns have been built or converted.

There has been considerable reduction in the grit and ash emissions from the Meaford Power Station, as a result of more efficient arresting equipment being installed.

16. Shops Act.

Regular visits to shops in the area have been maintained.

26 inspections of shops in respect of health and comfort provisions were made. A separate Shops Act Report has been submitted to the Council.

17. Inspection and Supervision of Food Premises.

Meat Inspection.

Regular meat inspection has been maintained in the three licensed slaughterhouses. All animals are inspected as soon as possible after slaughter.

The meat produced from the slaughterhouses is retailed in three private butchers' shops situated within the Urban area. Some meat is also supplied to the adjoining Rural District area.

The remaining butchers' shops receive their meat supplies from outside the district.

The Council's Slaughterhouse Report was approved by the Minister of Agriculture, Fisheries and Food in December, 1960.

Meat and offals found unfit : 16 cwts. 3 qrs. 17 lbs.

Number of animals slaughtered : 422 Cattle 35 Calves
2318 Sheep 691 Pigs

Cysticercus Bovis.

3 beef cattle were found to be infected with this parasite.

Tuberculosis.

Only 247 lbs. of offal was found to be infected with tuberculosis.

During the year there has been a marked decrease in the amount of meat and offals affected with tuberculosis. In the case of cattle the reduction since 1959 has been from 5.1% to 1.2% and in the case of pigs from 2.1% to 1.2%.

There has also been a reduction in general diseased conditions other than tuberculosis in cattle and sheep but a slight increase in respect of pigs.

All meat surrendered as unfit is coloured green and either forwarded for animal feeding products or destroyed at the refuse tip.

Since November all condemned meat and offals surrendered from the three slaughterhouses have been removed for disposal in accordance with the new Meat (Staining and Sterilization) Regulations, 1960.

Details of carcasses and offal inspected and condemned in whole or in part are shown in the following table.

PRIVATE SLAUGHTERHOUSES

	Cattle Excluding Cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
Number killed	422	-	35	2318	691	-
Number inspected.	422	-	35	2318	691	-
<u>All diseases except Tuberculosis and Cysticerci :-</u>						
Whole carcasses condemned.	-	-	-	-	1	-
Carcasses of which some part or organ was condemned.	153	-	-	46	37	-
Percentage of the number inspected affected with disease other than Tuberculosis and Cysticerci.	36.3%	-	-	2.0%	5.5%	-
<u>Tuberculosis Only :-</u>						
Whole carcasses condemned.	-	-	-	-	-	-
Carcasses of which come part or organ was condemned.	5	-	-	-	8	-
Percentage of the number inspected affected with Tuberculosis.	1.2%	-	-	-	1.2%	-
<u>Cysticercus :-</u>						
Carcasses of which some part or organ was condemned.	3	-	-	-	-	-
Carcasses submitted to treatment by refrigeration.	-	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-	-

18. Ice Cream.

Number of premises registered for sale of
pre-packed ice cream at 31st December, 1960 ... 26

Number of the above actually selling ice cream 23

Number of new registrations during the year ... 3

All the premises in the district sell pre-packed ice cream.
8 samples were submitted for bacteriological examination. All were
grade 1.

These results are highly satisfactory as all samples were up to
standard.

19. Milk.

During the year the County Authority have taken the following
samples in this area :-

Samples for bacteriological examination 71

Samples for biological test for Tuberculosis ... 11

All the 11 samples tested for Tuberculosis proved negative and
those submitted for bacteriological examination were satisfactory.
2 samples failed the Methylene Blue Test. 1 case of brucella abortus
was isolated.

20. Inspection of Food Handling Premises.

Frequent routine visits have been made to all food premises, with
particular regard to food hygiene. 9 notices were served to implement
the requirements of the Food Hygiene Regulations and all work required
was satisfactorily carried out. Verbal reminders were sent out to
traders in July regarding the storage and protection of meat and other
cooked products during spells of hot weather. Many more shops have
installed frozen food cabinets (display etc.).

21. Inspection of Food (excluding Meat at Slaughterhouses).

The following are the total amounts of food other than meat at
slaughterhouses, voluntary surrender of which has been accepted :-

Imported Meat, Canned Meat and Meat Products	47 lbs.
Other Foods	127 lbs.

APPENDIX

FACTORIES ACTS, 1937 to 1959

This table is enclosed by a request of the Minister of Labour to indicate to Medical Officers of Health the prescribed particulars which are required by Section 128(3) of the Factories Act, 1937, to be furnished in their Annual Reports with respect to matters under Parts I and VIII of that Act which are administered by the District Council. This table, which is not intended to supersede the fuller statement which is desirable in the text of the Report, should be attached as an annex to the Report.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH IN RESPECT OF THE YEAR 1960 FOR THE* Urban District OF Stone IN THE COUNTY OF Stafford.

Prescribed Particulars on the Administration of the Factories Act, 1937

PART I OF THE ACT

1 - INSPECTIONS for purposes of provisions as to health (including inspections made by Public Health Inspectors)

Premises (1)	Number on Register (2)	Number of		
		Inspections (3)	Written notices (4)	Occupiers prosecuted (5)
(i) Factories in which Sections 1, 2, 3, 4 and 6 are to be enforced by Local Authorities/	-	-	-	-
